Comments Report

6. Your Views - Comments

6.1) What did you like best about the module and why?

- interest given by teachers was high
- help was always provided
- willingness to interact with students

Interesting Content

The approachableness and dedication of teachers AP

The teaching staff were very helpful and approachable for this module and the content was interesting

That a professional from YouGov taught us. I liked the psychological approach and how people vote (week 17 - ideology)

The criteria of the assignments are clear, teachers are patient in answering questions, and course materials are well prepared. The trip was useful.

The lectures about The analysis on Variables

~~Theory~~ The module content.

Helped shape my career goals

AP

How structured everything was. It was quite easy to follow what the lecturers expected from us. I also liked how the lecturers gave us hands on experience, which made everything more interesting.

6.2) What areas of the module could be improved and why?

- labs could be improved by making them more interactive, but if students are more interested
- i feel like students were not rewarded as much as they should be.

n/a

Less Readings.

The lab sessions were too brief to cover the tasks

AP

DOING 50% & 50% IS VERY DEMANDING & CHAOTIC. I HAVE NO IDEA HOW TO DO THINGS. BETTER WOULD BE SMALLER ASSIGNMENTS OF 10-30% IMPORTANCE.

the lab modules were a bit chaotic

AP

Lectures always feel longer than they are

readings too tedious

Dont recommend to anyone who finds statistics very difficult.

I would prefer if the lecturers explained the link between labs and material and lecture material. ~~I did not understand~~ The two sessions appeared somewhat unrelated.
