Class/Seminar Teacher Evaluation

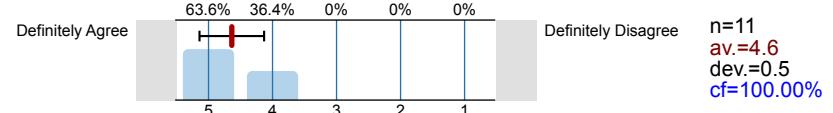

This survey requests your feedback on two separate aspects of your learning experience, split into three sections. The first section asks for your views on your teacher's class/seminar teaching. The second section asks for your views on the course as a whole *at this point in time*. Finally, the third section asks for some information about you, to aid analysis. Your views are valuable to your teacher and to the School. The results will be used to identify good practice and will also be used to help improve the teaching and learning experience for you and your peers.

1.7 Please comment below on aspects of this teacher's class/seminar teaching you think were particularly helpful.

- Always finding counter arguments and presenting alternative views.
- Best teacher I have. Incredible enthusiasm and drive. Sparks a fascination for the subject with the students. Extensive weekly emails keep us up to date with the material. I really wouldn't know what to improve.
- Group discussion with supervision is engaging and helps me with understanding areas I was unsure of.
- Group discussions
- He encourages us to challenge our readings to advance our understanding.
- Joe is absolutely brilliant at bringing the concepts we see in the lectures to life through his provocative questions received both before and during the class. It is clear that he puts a lot of effort into ensuring we understand the key takeaways from the readings which can get a bit lost in the lectures.
- Responds to class feedback
- Very good at simplifying and packaging up concepts neatly, whilst allowing for broader interrogation of the material
- well organised, clear and easy to approach if have any questions

1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- A more complete summary at the end as opposed to rushed feedback from groups.
- Engaging and applying the material with more real-world examples.
- I wish their was more whole group discussion after we feed back to the class from our smaller groups.
- Maybe some model answers written down somewhere because what he says in the classes makes a great deal of sense but sometimes don't get a chance to write it down for future reference.
- Nothing
- more class discussion, rather than individual discussion, would be useful to link class discussion to exam more because at the moment, what we are learning in class seems very abstract to the exam at the end of the year - i.e. if we are discussing a certain theory or reading, it would be helpful to mention how this theory could be used to answer an essay question/what kind of essay question this theory is useful for

2.2 This course is intellectually stimulating.

2.3 I have received sufficient advice and guidance in relation to this course to date.

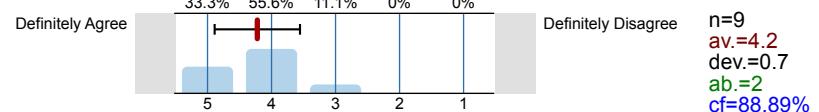

2.4 I am satisfied with the amount of contact time with teachers for this course.

2.4b Please comment below about why contact time with teachers has been less than satisfactory.

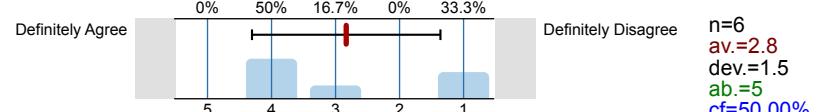

- It would be good if the classes were slightly longer, maybe 90 minutes, although I assume in that situation class size would increase and the quality would decrease.
- Not enough time in classes
- too much content for a one hour lecture, means it feels very rushed over and only learning on the surface - no in depth discussion in lecture. Need longer lectures to go more into detail or less content

2.5 I have been able to contact staff about this course when I needed to.

2.15 Please comment below on aspects of this course you think were particularly good.

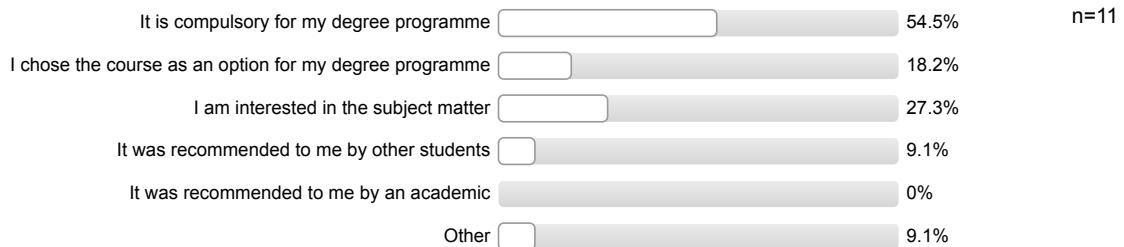

- Intellectually stimulating
- Interesting topics and a great class teacher.
- Joe Greenwood
- The lecturer provides lots of examples to provide clarity.

2.15b Please comment below on aspects of this course you think could be improved.

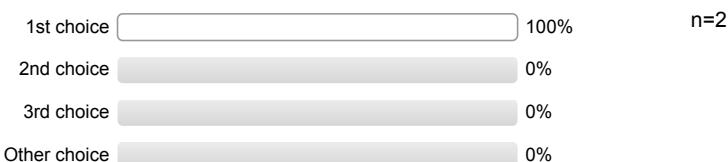

- Lecture- reading integration
- Lectures don't really link to readings. Too much content for the amount of time we have in lectures and classes, meaning it is all very superficial and never really get into any depth. Doesn't really help when trying to answer essay questions. More guidance on how to answer essays and how one can use the theories learnt each week in essays on that topic. teaching seems very distant to exam
- Maybe more class time so the readings can be discussed in more detail.
- More depth/time for complex issues
Chance for more independent thinking as opposed to subscribing to a number of assumptions.
Challenging the assumptions briefly don't always help
- There is a lot of content and I would prefer if we went into more depth on a fewer number of topics. As an introductory course I understand that a very deep understanding isn't expected but we seem to fly through a substantial topic with just a graph for reference on occasions.
- There should be clarification for what is required for the exam. I spend lots of time making notes on superfluous parts of readings and not focussing instead on the essential parts.
